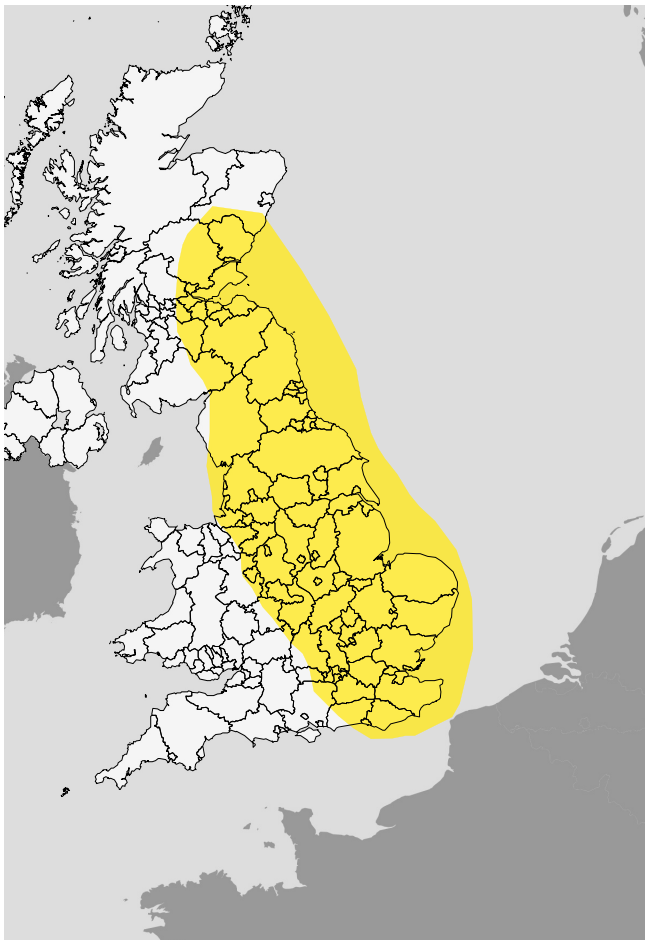
Yellow warning
Thunderstorm

Between
15:00 Thu 25 Jul 2019 and
04:00 Fri 26 Jul 2019



Hot weather sparking scattered thunderstorms later on Thursday, continuing overnight.

What to expect

- Spray and sudden flooding could lead to difficult driving conditions and some road closures
- Where flooding or lightning strikes occur, there is a chance of delays and some cancellations to train and bus services
- There is a chance that power cuts could occur and other services to some homes and businesses could be lost
- There is a small chance that homes and businesses could be flooded, or damaged by lightning strikes, hail or sudden gusts of wind

Further details

Following a hot day (in places exceptionally so), scattered thunderstorms are likely to break out from late afternoon onwards. While some areas, particularly in the south of the warning area may well avoid the storms, where they do occur they could produce 20-30 mm of rain in less than an hour, along with frequent lightning, hail and gusty winds. Perhaps the main focus will be later in the evening and into the first part of the night across northern England and southern and eastern parts of Scotland, where storms could be more widespread and locally intense.

Very low likelihood of medium impacts

Issued at 10:36 Wed 24 Jul, 2019
